

ACCELERATION

AMBITION

Governments

-  Updated current pre-2030 NDCs now
-  ALL to commit to more ambitious NDCs by 2025
 - Economy-wide
 - With absolute emissions cuts
-  Updated net-zero targets
-  Energy transition plans
 - No new coal and phase out of coal by 2030 in OECD countries, 2040 in all others
 - Phase down of existing oil and gas production, compatible with the 2050 global net-zero target
 - More ambitious renewable targets
-  Adaptation and resilience economy wide plans
-  Green Climate Fund pledges, delivery of the 100BN

CREDIBILITY

Businesses, cities, regions and financial institutions

- Transition plans aligned with the UN credibility standard
[Integrity Matters report]
-  2025 and 2030 targets
 -  Plans to stop & phase out fossil fuels
 -  Scope 3 emissions coverage
 -  Actual emissions cuts [no use of offsets]
 -  Commitment to a just transition

IMPLEMENTATION

All stakeholders

- Implementation coalitions and partnerships to
-  Decarbonise high-emitting sectors aligned with global 2050 net-zero target
 - Energy, shipping, aviation, steel, cement, agriculture
 -  Deliver Climate Justice
 - Early Warning Systems For All by 2027
 - Adaptation [50% of climate finance]
 - Loss and Damage Fund by 2023

COOPERATION
